

Westfield Sportscars

The ultimate driving experience

Westfield XI

Experience the thrill of owning a classic racing car
at an affordable price

Inspired by
the Lotus XI,
the most beautiful
and aerodynamic sports
racing car of the 50's, the first

Westfield XI was built by grand prix competitor Chris Smith in the garage of his home Westfield House. Requests from enthusiasts wanting XIs of their own resulted in the formation of Westfield Sports Cars Ltd in 1982.

“Every aspect of the Westfield XI is sharp and beautifully balanced”

Classic & Sports Car 2006
